**Summary of reasons  
for classification:**

The computer image file printout *0666583714[1].jpg* is classified as:  
Objectionable.

The publication is objectionable because it promotes and supports the exploitation of children and young persons for sexual purposes.

The printed image shows a girl who appears to be an older child or young teenager involved in a sexual act with a man. The image is intended for the sexual titillation and arousal of adults and its file format makes it suitable for wide distribution and trading among like-minded individuals. The image encourages viewers to see children and young persons as sexually desirable and as potential sexual partners for adults. The effect of such material is to validate a sexual interest in children and young persons and to encourage their sexual exploitation.

The classification of this publication interferes with the right to freedom of expression set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's clear intention in s3(2) of the Films, Videos, and Publications Classification Act 1993. The classification is a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of children or young persons for sexual purposes.
